Subject: question re reg num 71995-25

Hi Ona,

We have not corresponded before. I manage the registration review process for glyphosate. Reuben told me that you are the correct contact for this question. We are looking at the label for reg number 71995-25 and trying to figure out the use rate in x lb ae/A. We noticed that the current stamped label does not specify the x lb ae/gal information for this product. Can you please provide that information to us? This is rather time-sensitive, so we would really appreciate a response soon.

Thanks!
